

Basic principle of management

To become the first supplier of our customers, which fully satisfies their needs and achieves the required levels of satisfaction.

To be innovators in our field, creating products that meet the highest safety requirements and customer quality requirements.

Quality policy - management level

Quality is the first priority.

The efficiency of the Quality Management System is constantly improving.

SGM Plastics Ltd is constantly striving to build partnerships and customer satisfaction.

Quality policy - working level

SGM Plastics provides and applies the necessary controls to ensure full satisfaction of the Customer's requirements for Quality, Cost and Delivery, while ensuring a good working environment and taking into account the impact on the environment, personnel and product safety, morale and continuous improvement.

Our main goal is Delivery on time with zero defects!
